IMAGINE MINISTRY

Nicaragua is the 2nd poorest country in the Western Hemisphere.

We are working with children who face chronic malnutrition, sickness, and abandonment. More than 50% of Nicaragua's 6 million people are under the age of 18. One in every 4 children do not attend school, and the 3 that do are not receiving quality support. The health needs are critical as nearly half of the country is without access to

any form of medical care.

Less than a third of Nicaragua has access to a reliable source of water.

We are burdened by the needs of these people, and need your help.

• By meeting the most basic needs of food and education we can extend our reach into the lives of the children dramatically. We provide one meal a day for a growing number of children. We pray that our resources will allow for us to continue to expand the feeding program.

• The developmental years of a child's life are vital to securing a good future for them. Imagine Ministry has started a pre-school to complement its after school programs. Help us provide resources and pay teachers so that we can build upon the foundation of our ministry.
